

About Our Company

Kings Peak Lumber provides high-quality, mountain-grown softwood sourced from high-elevation forests of southern Utah. We specialize in kiln-dried, heat-treated lumber and custom-milled products for builders, wholesalers, and specialty projects across the Western and Central United States.

Why Builders Choose KPL

- Reliable US distribution
- Custom milling for unique project needs
- Specialty blue stain pine products

Our Mission is to deliver quality lumber and trusted relationships.

Our Timber Process

1. Log Selection

We begin with careful log selection, choosing material for strength and consistency.

2. Milling & Oversight

At our Utah mill, each log is processed with modern technology and skilled oversight to maximize quality and minimize waste.

3. Seasoning for Durability

Softwood is seasoned for durability and stability.

4. Precision Trimming

Each piece is trimmed to precise lengths and prepared for custom specifications.

5. Reliable Delivery

Finally, we manage shipping to ensure every order arrives on time and in excellent condition.
